### Federal Energy Regulatory Commission

[Docket No. CP22-513-000]

### Ohio River System LLC; Notice of Application and Establishing Intervention

#### Deadline

Take notice that on August 26, 2022, Ohio River System LLC (ORS), 8111 Westchester Drive, Suite 600, Dallas, Texas 75225, filed a Notification Regarding Limited Term Certificate in Docket No. CP17-482-000. The Commission is treating this notification as an application for ORS to abandon that certificate (Certificate) pursuant to section 7(b) of the Natural Gas Act (NGA) and part 157 of the Commission's regulations, and hereby gives notice of this proposed abandonment. ORS' Certificate granted it authority to provide certain jurisdictional transportation service in Ohio for a term of four years, which expired on August 27, 2022. ORS states that its Certificate is no longer needed, and it does not intend to seek an extension of the Certificate beyond the initial term. ORS asserts that the sole remaining customer utilizing the jurisdictional transportation service on the ORS System has ceased service. No other potential customers have sought such jurisdictional service and ORS does not anticipate any such customers in the future. There is no ongoing jurisdictional transportation service and no customers or shippers will be affected by the abandonment of the certificate, all as more fully set forth in the request which is on file with the Commission and open to public inspection.
